Christian Science Sunday Text 'Substance'

"Now faith is the substance of things hoped for, the evidence of things not seen." This statement is the Hebrews chapter 11 text for the Sunday Lesson-Sermon on "Substance" in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston. It is related in Mark's Gospel that Jesus sat up against the treasury, and beheld how the people cast money into the treasury; and many that were rich cast in much. And then there came a certain poor widow, and she threw in two mites, which make a farthing. And he called unto his disciples, and said unto them, Verily I say unto you, That this poor widow hath cast more in, than all they which have cast into the treasury: For all they did cast in of their abundance; but she of her want did cast in all that she had, even all her living." "Giving does not impoverish us in the service of our Maker, neither does withholding enrich us," writes Mary Baker Eddy in "Science and Health with Key to the Scriptures." Again she says, "Gratitude is much more than a verbal expression of thanks. Action expresses more gratitude than speech."
